MESSAGE FROM THE CEO

Dear shareholders,

In 2023, AROBS celebrates 25 years since its foundation. Therefore, we aim to exceed the expected growth and investors' expectations and to develop swiftly and stably to become the most significant player in the IT industry with innovative services and products from Cluj. Currently, AROBS is a company with a presence in 11 cities in Romania and 9 abroad and has a team of over 1,200 colleagues. And #WeWontStop here!

The first quarter set the tone for a potentially very successful 2023. We recorded a 113% increase in consolidated turnover compared to Q1 2022. The increase is based on several sources, one of them being the 35% organic growth of the main company in the Group - AROBS Transilvania Software - which continues to perform extremely well, both in the software services and at the product level.

The Integrated Systems specialization brought a significant increase within AROBS Systems. This greenfield business represents the business line responsible for implementing

hardware and software services and software products for contracting authorities in the public sector. Our colleagues contributed 27 million lei to the turnover related to Q1 2023.

Overall, we had a very dynamic beginning of the year regarding M&A transactions, an essential pillar in our development strategy. The acquisitions allow us to diversify our portfolio of services and products and increase our group's competitiveness in technology at national level and globally. The first transaction carried out in the first three months of the year was the acquisition of the Centrul de Soft GPS, through which we consolidated our position as the market leader in Romania thanks to the more than 1,000 active clients which were added to the portfolio with more than 10,000 clients of AROBS. Another transaction was the acquisition of SYDERAL Polska, through which we took another important step towards consolidating our expertise in the aerospace industry. The Polish company integrates synergistically with our teams in AROBS Engineering – developing embedded systems and software for the aerospace sector. The financial results of SYDERAL Polska are reflected within the group as of February this year.

As of February 2023, the financial results of the acquired companies from the Republic of Moldova, AROBS Software Moldova, and TrackGPS by AROBS are also included in the consolidation. Thus, the companies attracted to the Group represent an essential source of growth in Q1 2023 and contribute to increasing the geographical footprint of the business and the diversification of our services and products.

Another significant event for us is the acquisition of the Future WorkForce Global (FWF) group, signed in Q2 2023. This transaction confirms our strategy of developing new software services expertise to keep us competitive in the global technology landscape. The acquisition of FwF consolidates our position in the intelligent automation market through Robotic Process Automation (RPA), Artificial Intelligence (AI), and Machine Learning (ML) in Western Europe. FwF develops intelligent automation solutions that use the latest RPA (UiPath, Microsoft, Celonis, Outsystems), AI, ML, and low-code technologies to automate repetitive and time-consuming tasks, allowing organizations to focus on high-value activities.

CoSo 's RPA division by AROBS Belgium and the Netherlands joined forces with <u>Future WorkForce</u> and will continue to be present in Benelux under the Future WorkForce brand. Thus, we quickly capitalize on the synergy between the organizations within the AROBS Group. Now, we have a team of over 100 experts in Intelligent Automation in the UK, the Benelux area, Germany and Romania.

Another major project related to Q1 2023, which this time addressed our colleagues, was the start of the third stage of the Stock Option Plan (SOP) program. Since listing on the Bucharest Stock Exchange, one of our strategic directions has been to focus on the motivation and retention of AROBS team members. Our Stock Option Plan

(SOP) program, granted free of charge to colleagues who meet the minimum duration of the employment contract but also of performance criteria, has opened a new topic of conversation in the Romanian industry. SOP programs continue to be one of our differentiators, considering the small number of listed technology companies implementing similar programs. The involvement of colleagues in the company's performance, the fact that we move from a relationship of colleagues to that of business partners, is another element that distinguishes AROBS in the market, and we want that through such programs to attract talents with vast expertise in the field.

Regarding our activity on the capital market, AROBS is currently the largest technology company listed on the Bucharest Stock Exchange, with a market capitalization of over 900 million lei. AROBS shares are still the most traded on the AeRO market, and the trust and interest of shareholders support us in the process of preparation for the transition to the Main Market, which we estimate will be completed in the second half of 2023.

AROBS follows the strategic course established based on the four assumed development directions. We will continue to be active and involved in innovative research projects and develop new software services expertise. We will continue to carry out the M&A activity at the same pace as until now and target acquiring entrepreneurial companies with exceptional teams that can bring added value to the AROBS group.

We invite you to browse the following pages of the financial report for Q1 2023, where more details are presented regarding the performance of the AROBS Group in the first quarter of this year. In case of any questions related to our business activity or the capital market, please contact us at <u>ir@arobs.com</u>.

Voicu Oprean CEO

ABOUT AROBS TRANSILVANIA SOFTWARE

AROBS Transilvania Software SA is an IT company established in 1998, and currently, it is the technology company with the highest capitalization and liquidity on the Bucharest Stock Exchange. The company's object of activity is developing custom software with high expertise in software engineering for the automotive, aerospace, medical, maritime, and other fields, but also in developing software for IoT, tourism, clinical studies, enterprise solutions, and FinTech.

Since its establishment, AROBS Transilvania Software has relied on excellent specialists and well-adjusted but flexible processes to consistently deliver the best quality customized software, products, and software applications, where the company has retained ownership.

The excellence of the services and the dedication shown by the company's specialists have helped establish strong, long-term partnerships with over 11,000 companies in Romania, Central and Eastern Europe, and hundreds of international companies.

Since 2003, AROBS Transilvania Software has been creating its solutions and products, the most important of which are:

- TrackGPS car fleet management and monitoring solution;
- **Optimall** sales force automation solution;
- **RateWizz** channel manager for the hotel industry;
- Digital school textbooks solution;
- MonePOS Contactless and paperless payment solution.

AROBS has 25 years of experience in developing customized software solutions for customers in 14 countries in Europe, Asia, and America.

The company has its headquarters in Cluj-Napoca and regional operational offices in Bucharest, Iasi, Targu Mures, Baia Mare, Suceava, and Arad.

As of December 2021, new offices were added to the AROBS map in Romania by acquiring Berg Computers, a company with offices in Timisoara, Oradea, and Lugoj.

Also, as of June 2022, the AROBS Group consolidated its Software Services division by integrating a number of approximately 160

employees by taking over the company Enea Services Romania from the company Enea Software AB from Sweden. By taking over Enea (officially registered as AROBS Development & Engineering), AROBS has new offices in Bucharest, Craiova, Iasi, and Florida (USA).

By taking over the Nordlogic group in July 2022, AROBS has new locations in Cluj-Napoca, Oradea, and Seattle, USA.

Through the acquisitions carried out in the first three months of 2023, AROBS is now also present in the Republic of Moldova – Chisinau, through AROBS Moldova and TrackGPS by AROBS Moldova, in Poland - Gdansk, through SYDERAL Polska, and through Future WorkForce Global, a company acquired in Q2 2023, AROBS has new offices in Cluj, Bucharest, London, and Munich.

The AROBS Group consists of AROBS Transilvania Software SA (the "Company" or "AROBS" or "Parent Company" and its subsidiaries):

KEY EVENTS IN Q1 2023 AND AFTER THE CLOSING OF THE REPORTING PERIOD

ACQUISITION OF CENTRUL DE SOFT GPS SRL

On January 18, 2023, the Company informed the market about the complete acquisition of Centrul de Soft GPS SRL. Centrul de Soft GPS represented the fleet management division of the company Centrul de Soft Pro until June 2022, when a division process took place, and the Company entirely took over the new entity created under this name. The Centrul de Soft GPS is specialized in developing ERP-type applications and providing solutions for fleet management, fleet monitoring, security applications, or the recovery of stolen cars. The client portfolio of the Centrul de Soft GPS consists of more than 1,000 companies with approximately 9,000 monitored vehicles.

ACQUISITION OF SYDERAL POLSKA

On **February 2**, 2023, the Company informed the market about the acquisition of the majority stake, 94%, in SYDERAL Polska, a company in Gdansk, Poland specialized in the development of products and technologies for quantum and optical communication, storage and processing data as well as control of mechanisms and instruments via satellite.

SYDERAL Polska was established in 2016 and has a team of 28 specialists in providing hardware and software solutions for the aerospace sector customers' needs. The company implements projects for the European Space Agency (ESA) and simultaneously conducts R&D projects funded by the National Center for Research and Development (NCBiR) in Poland. By taking over SYDERAL Polska, AROBS enters a new market, Poland, and consolidates its business expertise in the field of embedded systems for aerospace.

The company is still managed by Michal Drogosz, the current CEO, who also remains a shareholder with a 6% stake.

APPOINTMENT OF CHIEF FINANCIAL OFFICER

On **February 8**, 2023, the Company informed the market about the appointment of Mr. Bogdan Ciungradi as the Chief Financial Officer of the Company. The mandate of Mr. Ciungradi is granted for an undetermined period of time. Bogdan Ciungradi is an executive with 25 years of experience in the financial and operating field. During his professional career, he held various management positions in companies such as Noriel Group, Țiriac Imobiliare, SIVECO Romania, and Flanco, where he contributed to their business optimization and financial processes.

As CFO of the Company, Bogdan Ciungradi will be responsible for coordinating the activity of the financial department and streamlining operations to stimulate financial performance at the group level. At the same time, he will be involved in the process regarding the transfer of AROBS shares on the Main Market of the Bucharest Stock Exchange, an objective that the company aims to achieve this year.

EGMS FROM APRIL 19, 2023

On March 16, 2023, the Board of Directors of AROBS Transilvania Software convened the Extraordinary General Meeting of Shareholders for April 19, 2023. The legal and statutory quorum was constituted at the first convocation. The key points voted during the EGMS were:

- Approval for the future of the admission to trading of the Company's shares on the regulated market administered by the Bucharest Stock Exchange;
- Approval of distribution of shares through the stock option plan program for employees of Berg Computers SRL and COSO by AROBS BV;

• Approval of the reduction of the share capital of Arobs Transilvania Software SA from 91,139,498.8 lei to 87,129,360.9 lei, respectively with the amount of 4,010,137.9 lei, as a result of the cancellation of a number of 40,101,379 own shares (in proportion of 4.4% of the total number of shares) acquired by the company, in accordance with EGMS Decision no. 4 from 23.08.2021 and EGMS Decision no. 8 from 11.10.2021 and not distributed within the legal term, according to art. 1041 para. (3) from the Companies Law no. 31/1990 republished, with subsequent changes and additions. After the reduction, the share capital of Arobs Transilvania Software SA will have the value of 87,129,360.9 lei divided into 871,293,609 ordinary, registered, dematerialized shares, with a nominal value of 0.1 lei each.

ACQUISITION OF FUTURE WORKFORCE GLOBAL

On **April 26, 2023**, the Company informed the market about the complete takeover of the Future WorkForce Global (FWF) group, from Cluj-Napoca, specialized in providing complex business process automation solutions. In addition to Romania, where it has offices in Cluj-Napoca and Bucharest, the group has subsidiaries in London, UK, and Munich, Germany. Future WorkForce Global Group has approximately 100 specialists in optimizing and automating business processes using innovative technologies and solutions, such as Robotic Process Automation, Artificial Intelligence, and Machine Learning, located in Romania, UK, and Germany. The company started its activity in 2017, and today it has partnerships with some of the most important technology companies in the world – UiPath, Microsoft, Celonis, and Outsystems. Its clients include companies from banking, insurance, retail, logistics, and many more. FWF has an excellent reputation in the local and international markets, with its team being recognized for the customized approach and innovative solutions it provides to clients. In 2022, the FWF group recorded a turnover of approximately 22 million lei.

The company's management will continue to be ensured by Mihai Balaj and Marius Bene as co-CEOs, Daniel Muresan as CTO, and Voicu Oprean as Chairman of the Board of Directors.

OGMS FROM APRIL 28, 2023

On March 27, 2023, the Board of Directors of AROBS Transilvania Software convened the Ordinary General Meeting of Shareholders for April 28, 2023. The legal and statutory quorum was constituted at the first convocation. The key points voted during the OGMS were:

- Approval of the revenue and expense budget for the 2023 financial year;
- Approval of the allocation of the Company's net profit, in the amount of 41,898,453.37 lei, for the financial year ended on December 31, 2022, determined in accordance with the applicable laws, as follows: the amount of 38,547,374.37 lei undistributed net profit (result carried forward), the amount of 2,403,521.88 lei was allocated for the establishment of the legal reserve and the amount of 947,557.12 lei was allocated for the establishment of other reserves;
- Approval of the remuneration policy of AROBS Transilvania Software SA;
- Approval of the reduction in management of the members of the Board of Directors for the 2022 financial year (secret vote).

ACQUISITION OF AROBS Software SRL and AROBS TrackGPS

In December 2022, the Company announced the complete takeover of the entities from the Republic of Moldova, AROBS Software SRL and AROBS TrackGPS SRL (TrackGPS by AROBS Moldova). The two transactions were approved by the Company's shareholders during the General Shareholders' Meeting held on December 22, 2022. In February of this year, the two transactions were completed.

CONSOLIDATED AND INDIVIDUAL FINANCIAL RESULTS ANALYSIS

AROBS acquired, at the end of January 2023, the company SYDERAL Polska. This subsidiary's financial performance (revenue and expenses) is reflected within the group as of February 2023.

At the beginning of February 2023, AROBS acquired the entire share capital of the companies AROBS Software SRL and AROBS Trackgps SRL, whose financial performance (revenue and expenses) is reflected within the group as of February 2023.

**Normalized EBITDA = EBITDA without SOP impact

*** Normalized net profit excludes the non-cash effect generated by the Stock Option Plan (SOP) programs and amortization of goodwill

The Q1 2023 turnover exceeded the budgeted value for this period by 25% due to increases in both the services and product segments. A significant aspect that influenced these results is the turnover recorded from the activity of the integrated system for which the projects in progress at the beginning of 2023 were delivered and invoiced fully in Q1 2023. However, their completion was budgeted during both Q1 2023 and Q2 2023.

The operating expenses in Q1 2023 had the same evolution as the revenue compared to the budgeted values. Simultaneously with the turnover recorded from the activity of the integrated system, the expenses on goods and services performed by third parties in these projects were also recorded.

**Normalized EBITDA = EBITDA without SOP impact

*** Normalized net profit excludes the non-cash effect generated by the Stock Option Plan (SOP) programs and amortization of goodwill

In Q1 2023, the AROBS Group, at the consolidated level, registered a net turnover of 131.3 million lei, up 113% compared to Q1 2022.

A significant factor, which determined the increase in turnover at the group level, is the contribution of the newly acquired companies (Berg Computers, AROBS Development & Engineering, the Nordlogic group), as well as the established subsidiaries (AROBS Systems) between April 2022 and March 2023.

Also, a favorable contribution to the increase in turnover was made by the contracting of new projects in the area of providing software services, the growth of existing teams, the expansion of collaboration with existing clients, as well as the increase in the course of 2023 of the hourly rates applied to services. In software products, the increase in turnover was determined by contracting new customers during this period.

Globally, requests for services and software products continue to be on an upward trend as companies and organizations continue to need to digitalize their processes. The software development industry constantly requires access to excellent resources for companies to perform in a competitive market. In software products, such as fleet management, business optimization, digital payments, HR solutions, and implementing digitalization projects in the public sector, the market is also growing due to recent years' challenges and the economic-social context.

The contribution of the group's business segments to the total turnover is presented below:

Business lines	Turnover Q1 2022 (lei)*	Turnover Q1 2023 (lei)*	Variation %
Software services	47,050,009	87,233,695	85%
Software products	13,373,127	16,787,283	26%
Integrated systems	-	26,927,228	100%
Distribution of goods	948,565	-	-100%
Other services	131,481	354,835	170%
Total	61,503,182	131,303,041	113%

* unaudited

In Q1 2023, the "Software Services" segment registered an 85% increase at the consolidated level compared to Q1 2022, and the revenues generated by the "Software Products" segment increased by 26% compared to the same period of the previous year.

The "Integrated Systems" segment is developed by one of the group's subsidiaries, AROBS Systems, which is responsible for implementing hardware and software solutions, as well as software products for public sector contracting authorities. This company has a team of public sector professionals, and its technical expertise covers integrating complex systems and technologies such as ORACLE, HP, DELL, and Microsoft. In Q1 2023, AROBS Systems completed a hardware and software solution acquisition project to consolidate the databases necessary to operate the Customs Integrated Information System components, generating 21% of the Group's turnover. Solutions sold in this segment generate margins between 5% and 10%.

At the beginning of 2022, the goods distribution activity from the Products segment of AROBS was transferred to an entity outside the Group because it did not represent one of the strategic development directions of AROBS.

Operating expenses evolved faster in Q1 2023 compared to operating revenues, reaching 115.9 million lei, compared to 43.8 million lei recorded in Q1 2022. The highest expenses were generated by personnel expenses, increasing as a result of M&A activities, but also for maintaining competitiveness in the market through salary increases and stock options offered within the SOP programs. Also, an essential contribution to the increase in expenses is the cost of goods generated by the cost of equipment and IT solutions delivered as part of the sales of integrated systems. Another significant contribution to the increase in expenses was the cost of contracted services from third parties. This expense increase is consistent with the business expansion, with the surplus related to the acquired companies established during the year and with the development of domestic products.

A significant share in the operating expenses is the cost of amortization of the goodwill, in the amount of 3.4 million lei, in Q1 2023, resulting from the acquisition of new companies as part of the M&A strategy. The total value of the goodwill related to acquisitions in 2022 and 2023 is 115.5 million lei. According to the statutory legal regulations, the accounting treatment applied to the goodwill provides for its systematic amortization between 5 and 10 years. With the transition to IFRS reporting, goodwill will no longer be amortized but will be tested annually for impairment. An expense will be recorded only when there are indications of depreciation of the investments made. From these considerations, *the "Normalized Net Result"* was also calculated, which cancels the impact of the goodwill amortization expense.

As a result of the above, in Q1 2023, EBITDA recorded a value of 22.8 million lei, a 9% increase compared to Q1 2022. The gross result recorded by the AROBS Group at the end of Q1 2023 was 17 million lei, a 13% margin. As detailed above, the decrease in consolidated net result compared to Q1 2022 was driven by increased operating expenses due to accelerated expansion through M&A, which is still ongoing.

On March 31, 2023, total assets reached a value of 401.6 million lei, compared to the end of 2022, determined by an increase of 14.4 million lei in fixed assets, which registered at the end of Q1 2023 a total value of 167.9 million lei and a 13% increase in current assets, which registered, at the end of Q1 2023, a total value of 231.5 million lei.

The increase in fixed assets is primarily due to the increase in the value of the goodwill following the acquisition of 100% of the shares of AROBS Software SRL and AROBS TrackGPS SRL and following the acquisition of 94% of the shares of SYDERAL Polska.

At the same time, the increase in fixed assets is also due to the investment in a new headquarters, worth 1.5 million lei, and the development of new functionalities for internal products, worth 1.4 million lei.

In Q1 2023, current assets increased by 13% compared to the end of the previous year, mainly due to positive variations in receivables. Trade receivables increased by 83% at the end of Q1 2023, reaching 124.5 million lei due to the increase in activity at the Group level through organic development and the acquisition of companies.

At the end of Q1 2023, total liabilities increased by 26%, compared to the end of 2022, reaching 142.4 million lei, due to the increase in the value of commercial liabilities and tax debts, including the effect of newly acquired companies. During the first three months of 2023, the liabilities to credit institutions decreased by 5 million lei.

There were no changes in the share capital during the period, and equity increased by 5% due to the current result. In Q1 2023, the parent company bought back its shares worth 4.5 million lei.

DECLARATION OF THE MANAGEMENT

Cluj-Napoca, May 30, 2023

I confirm, according to the best of my knowledge, that the unaudited individual and consolidated financial results for the period between 01.01.2023 and 31.03.2023 give a true and fair view of the assets, liabilities, financial position and revenue and expenses situation of AROBS Transilvania Software SA and that the management report provides a true and fair view of the important events that took place in the first three months of the 2023 financial year and their impact on the company's financial statements.

Voicu Oprean
