Ovidiu Bojan is an executive with over 25 years of senior management experience in technology, distribution and real estate development. He is Executive Director at AROBS Transilvania Software S.A., a company listed on the Bucharest Stock Exchange, where he leads the Software Products business line as well as the TrackGPS fleet management division, which he has developed into a top regional player. Throughout his career he has held leadership positions at Atlas Corporation, Proton Auto, Nisco City Center and Micro Mapper, overseeing national distribution networks, the development of a shopping centre, and digital products for the navigation and traffic information market. He has contributed to the group's international expansion, including the opening of the Indonesian office, and to the consolidation of its fleet management portfolio through acquisitions and integrations such as SAS Group, Centrul de Soft GPS and SVT Electronics. He holds a degree in Mathematics and Computer Science from "Babeș-Bolyai" University and a master's degree in business management from "Bogdan Vodă" University; he completed the ELITE program of the London Stock Exchange Group and is a founding member and Past President of Rotary Club "Cetățuie" in Cluj-Napoca. His expertise includes strategy and execution, M&A and integration, governance in listed companies, regulation and risk, technological innovation and team leadership.
